“ There are so many wonderful memories that I have of Dorothy. I hired Dorothy as a temp at Crestron and promptly tried to convince her to stay on permanently. I was never sorry and I think she felt the same. She brought such fun with her upbeat spirit. I never heard a negative word from her or about her. She had such a great relationship with her husband, John. All of the women were jealous of her regular flower deliveries from him! Everyone looked forward to her yearly soda bread on St Patrick's Day with Irish butter, of course. Her recipe has traveled through Crestron and lives on every year. I am so sad we have lost such a special person. I am so happy I got to see her one more time last summer. She was such a joy. As Ryan Reynolds said after the death of Betty White, "She managed to grow very old and somehow, not old enough." We will miss you.

I remember when me and my brothers were little and we would call Crestron when we got home from school to let my mother know we were home. Dorothy would answer we would talk to her. She was always so nice and happy. When I started to work at Crestron I would walk down to accounting and joke around with Dorothy. She would catch any mistakes we would make in Order Entry. I would tell her we would make the errors on purpose to see if she would catch them. Keep her on her toes! She would laugh every time. She was such a sweet, happy lady. It made me sad when I found out she is no longer with us. Sending hugs!
