

Dr. Mehdi Ahmadi

January 8, 2026

Dr. Mehdi Ahmadi, a devoted hematology-oncologist who dedicated his career to caring for cancer patients in Murray, Kentucky, passed away on January 8, 2026, at the age of 77.

Born on October 7, 1948 in Arak, Iran, Dr. Ahmadi graduated from Tehran University College of Medicine before bringing his expertise and compassion to the United States. He spent his career in Boston and New York providing hope and healing to countless patients facing some of life's most difficult diagnoses. His colleagues and patients alike knew him as a physician who combined medical excellence with genuine human kindness.

Beyond his professional achievements, Dr. Ahmadi was a devoted family man. He was the beloved husband of Nahid and the proud father of two daughters, Hani and Ayda, and two grandchildren he adored, Sebastian and Elody. Those who knew him well were also aware of his deep love for all animals, a reflection of his gentle and caring nature.

Dr. Ahmadi's legacy lives on through the many lives he touched—the patients he treated with skill and empathy, the family he cherished, and the community he served. We will miss and love him forever.

He is survived by his wife, Nahid, and his daughters, Ayda and Hani.
