“ i have many memories of Will, who was my special friend. After reflecting, I think my best memories are of us having lunch together at Bennie's. We shared together on many different topics, and got to know other regular customers as well. Sometimes, we would take a walk together before going to our separate homes. Those are my favorite memories.

“ We enjoyed knowing Will very much and wish we could have known him longer. We appreciated his friendliness, warmth, wit, knowledge and interest in many things especially family history. He was very kind to us when we were on Nantucket together in June '18 for cousin Adrienne Mc Calley's memorial. We will always treasure the video that he made of Adrienne which he copied for all of us. We are related to Will through the Adriance family. His Grandfather John Adriance and my (Fredrika's) Father, Albert Adriance Simpson were first cousins. We have lots of good memories of the Adriance family. With Sympathy and Love to all of Will's family and friends, Fredrika and Kent Groff, Denver, CO
